9) The personnel files of Vincent DeSantis and Ed Williams, including all documents showing their job descriptions over time.

RESPONSE:

Objection: Springfield objects to the foregoing request on the grounds that it is overly broad and unduly burdensome in that it seeks documents that are not relevant to any party's claim or defense and is not proportional to the needs of the case, considering the parties' resources, the importance of the discovery in resolving the issues, and the burden or expense of the proposed discovery outweighs its likely benefit, pursuant to Fed. R. Civ. P. 26(b)(1).

10) Any and all documents that suggest who created the job description for the snow route inspector attached hereto as Bates stamped document 139.

RESPONSE:

Objection: Defendant objects to Production Request # 10 as the use of the word "suggests" in regard to the request is unclear and overly broad.

11) Any and all documents that show communications, whether written or electronic, to and from any person who applied to be a snow route inspector from 2012 to present, including any and all emails, memos, postings, telephone messages, etc.

RESPONSE:

No such documents are in the Defendant's possession, custody or control other than those previously provided by the Defendant in response to Plaintiff's Request for Production of Documents # 10 and Plaintiff's Request for Production of Documents # 8.

12) Any and all documentation relied on or referenced in Defendant's answer in its Position Statement filed with the MCAD indicating that "[t]he number of individuals available for

snow removal dwindled over time from three hundred (300) in 1999 to approximately one hundred and twenty (120).” See position statement at page 2 paragraph two.

RESPONSE:

Objection: Springfield objects to the foregoing request on the grounds that it is overly broad and unduly burdensome in that it seeks documents that are not relevant to any party’s claim or defense and is not proportional to the needs of the case, considering the parties’ resources, the importance of the discovery in resolving the issues, and the burden or expense of the proposed discovery outweighs its likely benefit, pursuant to Fed. R. Civ. P. 26(b)(1). Furthermore, the Defendant states that the production of said financial records would be overly burdensome as it consists of thousands of pages.

- 13) Any and all documents supporting Defendant’s statement that “layoffs, attrition, and budgetary woes led to the need to hire new inspectors during the 2012-2013 winter season.”

RESPONSE:

Objection: Springfield objects to the foregoing request on the grounds that it is overly broad and unduly burdensome in that it seeks documents that are not relevant to any party’s claim or defense and is not proportional to the needs of the case, considering the parties’ resources, the importance of the discovery in resolving the issues, and the burden or expense of the proposed discovery outweighs its likely benefit, pursuant to Fed. R. Civ. P. 26(b)(1). Furthermore, the Defendant states that the production of said financial records would be overly burdensome as it consists of thousands of pages.

- 14) All snow route maps used for snow route inspection from 2012 to present.

RESPONSE:

Please see the documents provided in the Defendant’s Answers to Plaintiff’s First Set of Interrogatories and the documents provided in the Defendant’s Answers to Plaintiff’s Second Set of Interrogatories # 1 and Snow Route Maps attached and identified as Exhibit 13.
